Internship/Experience

Role: Software Developer Trainee
Company:NCS, Indore (M.P) **June 2026- Present**

- Built backend services using Java and Spring Boot with MVC Architecture.
- Handled database operations using Hibernate and JPA with MySQL.
- Developed and tested RESTful APIs for smooth communication between backend and frontend layers.

Projects

GeoVigil
Tech: Java, Spring Boot Framework, JavaScript, MySQL, GPS API
- Developed a web-based student monitoring system using Geo-fencing for enhanced security.
- System monitors student entry/exit, sends instant email notifications, and provides an admin dashboard.

Carbon Footprint Tracker
Tech: Java, JDBC, Servlet, MVC Architecture, MySQL, JavaScript
- Developed a web solution using MVC Architecture and servlet to process users input and MySQL for data storage.
- The system tracks usage data and offers suggestions to reduce carbon footprints.

Achievements and Awards

- Received an award from IPS Varun Kapoor Sir during a Cyber-Security Workshop.
- Served as a PR Manager in Entrepreneurship Cell (E-Cell) at SCSIT, DAVV.
